

code = application

1) What is the main part in operating system

a) Application

b) Hardware

c) Kernel

d) Responsibility

2) In which year the UNIX was developed?

a) 1991

b) 1960

c) 1981

d) 1950

3) In which year the LINUX was developed?

a) 1991

b) 1960

c) 1981

d) 1950

4) Devcope is a mixture of

a) Development & Sensors

b) Development & operations

c) Only a

d) a & c

5) What are the applications of system administrator.

a) Running code, updates, security, monitoring, logging

b) Only running code, security

c) Only updates, logging

d) None of the above

6) What are the Responsibilities of system engineer

a) Creating the platform code at Executing time

b) Creating the platform code at run on

c) Creating the platform code at Executing time & run on

d) None of these

Stephen
Muthu
Ganesh
Raj

10) What is the difference b/w Devops & SRE.

a) Development.

~~b) Functionally.~~

c) Operations.

d) all of the above.

1) abbreviation of SRE

~~a) Site Reliable engineers~~

b) Site Reliable engineers

c) Site Reliable engineers

d) Site Reliability engineers

2) What are the Responsibilities of DevOps engineers

a) General Infrastructure, Continuous Integration

b) Developer Environment

c) Logging etc

~~d) all take the above~~

3) What is the use of operating system

a) used to communication only with hardware

~~b) used to communicate hardware & applications~~

c) used to communicate only with applications

d) both (a) & (b) & (c)

4) which of the following is not a benefit of automation in DevOps?

- (A) implants manual errors ✓
- (B) Enables anyone to perform tasks
- (C) enables speed, reliability and consistency
- (D) None of the above.

5) which of the following team gets priority in DevOps?

- (A) operational team
- (B) development team
- (C) A & B ✓
- (D) None

6) which of the following is the popular scripting language of DevOps?

- (A) Java, Python, HTML, C++
- (B) DevOps is an extension of —
- (C) QA (Quality assurance)
- (D) Agile

7) SRE and DevOps engineers can share

- (A) same difficult principles
- (B) same principles ✓
- (C) None
- (D) Waterfall
- (E) None

8) SRE is viewed as

How can provide better security

① What are the key components of DevOps?

- a) Continuous Integration
- b) Continuous testing
- c) Continuous delivery and monitoring
- d) All of the above.

Ans: d)

② DevOps is an extension of —

- a) QA
- b) Agile
- c) Waterfall
- d) None of the above.

Ans: b)

③ Which of the following is the popular scripting language of DevOps?

- a) Java
- b) python
- c) HTML
- d) C++

Ans: b)

4) The cloud platform which are not used for Devops implementation?

- (a) Google cloud
- (b) IBM
- (c) Microsoft Azure
- (d) Amazon web services.

Ans: (b)

5) Which of the following is not a benefit of automation in Devops?

- (a) Implants Manual errors
- (b) Enables anyone to perform tasks.
- (c) enables speed, reliability and consistency.
- (d) None of the above.

Ans: (a).

5) Who is responsible for the creating platforms code running ?

- 1) System Administrator
- 2). System Engineers
- 3). Devops Engineers
- 4). Site reliable engineers

Ans. Option (2).

1. Release of software in Post-DevOps world can be made faster through:

a) Agile b) Waterfall c) Iterative d) DevOps. Ans. (1)

2. Which one of the following techniques makes DevOps a successful methodology to develop & deliver software?

1) DevOps enable you to organize your teams around your organizational mission.

2) DevOps enables you to create your software with built-in quality & monitoring.

3) DevOps enables you to quickly identify, fix & learn from errors

4) All above choices Ans (4)

3. In a DevOps, large scale services & companies requires which of the following other than identical servers?

1). Configuration monitoring tools

2). Configuration management tools.

3). Both None of above

4). Both 1 & 2. Ans (2)

4). Who is involved in QA/Development work in DevOps?

1). System Engineers

2). System Administrators

3). Site reliable engineers

4). None of the above. Ans. (2)

* Which of the following is the popular scripting language of devops?

- A) Java
- B) Python
- C) HTML
- D) C++

Ans: ~~A~~ B

* DevOps is an extension of _____

- A) ~~Waterfall~~
- B) Agile
- C) None of the above

Ans: B.

* Which of the following team gets priority in devops

- A) operational team
- B) development team
- C) both A & B
- D) None of above

Ans: C.

* What are key components of DevOps?

- A) Continuous Integration
- B) Continuous Testing
- C) Continuous Delivery & Monitoring.
- D) All of the above.

Ans: D.
